Summary

Software Engineer with strong hands-on experience building **responsive** and **scalable web applications** using **React.js**, **TypeScript**, and **modern JavaScript (ES6+)**. Proven ability to translate **UX/UI designs** into **high-quality**, **accessible (WCAG-compliant)**, and **performance-optimized front-end solutions**. Experienced in **component-driven architecture**, **state management**, and **RESTful API / GraphQL integrations** within **Agile/Scrum environments**. Delivers **robust**, **maintainable**, and **enterprise-grade code** supporting complex business requirements. Actively leverages **AI-assisted development tools** to accelerate delivery, enhance **code quality**, enable safe refactoring, and ensure validated, production-ready outputs.

Technical Skills

- **Frontend Core:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3.
- **UI & Architecture:** Tailwind CSS, Bootstrap, Framer Motion, Leaflet.js, Responsive Design, WCAG/AODA Accessibility, State Management.
- **State & APIs:** RESTful APIs, GraphQL, Google API Integration, Razorpay Integration.
- **Backend & Cloud:** Node.js, Express.js, Python, AWS, GCP, Firebase, SQL, PostgreSQL, Pocketbase, Vercel.
- **Tools & Methodologies:** Git, GitHub, JIRA, Figma, Agile/Scrum, CI/CD, Postman, Copilot, Gemini, Claude, GenAI, Antigravity, Cursor

---

Professional Experience

Freelance Full Stack Developer | Remote | *Jul 2022 – Present*

- Designed and developed **scalable full stack web applications** using **React.js, Next.js, JavaScript (ES6+), TypeScript, Node.js, SQL, REST APIs, and PocketBase**.
- Built **high-performance, responsive, mobile-first UIs**, improving user engagement and reducing bounce rate by **28%**.
- Developed **reusable component libraries** and modular frontend architecture to support scalability and maintainability.
- Integrated **secure payment gateways** and third-party APIs for reliable transaction processing and system functionality.
- Implemented **SEO-optimized features**, including **dynamic sitemap generation, automated metadata, and search-friendly routing**.
- Built **interactive map-based features** and data-driven UI components for enhanced user experience.
- Managed **end-to-end deployment** of frontend and backend on **Unix/Linux (VM) servers**, including **SSL certificates, environment configuration, and subdomain setup**.
- Designed and launched a scalable Wix-based e-learning platform by configuring native workflows to enhance user experience and operational efficiency.

Key Projects

- **Path To Green Homes:** Developed and deployed a **solar hardware comparison platform** using **React, Node.js, SQL, REST APIs**, with **Razorpay integration**, mobile-first design, and SEO optimization.
  Project Link: Best Solar Company Near Me | Home Solar Installation India
- **STEM For Others:** Built **interactive onboarding and learning modules** using **React, Next.js, TypeScript, and SQL**, focusing on **accessibility, usability, and performance optimization**.
  Project Link: STEMplore
- **Dogwood Pavilion:** Redesign and build a **new application for social recreation centre for adults** using **Typescript, NextJS, TailwindCSS.**

Sr. Software Developer | The Citizen Project | Remote | Sep 2024 – Aug 2025

- Designed and implemented user-facing web components using **React.js and TypeScript**, focusing on scalable and maintainable frontend architecture.
- Optimized component rendering and **integrated third-party APIs** to improve application performance and reduce load times by 35%.
- Leveraged **AWS S3** for secure storage and delivery of static assets and user-uploaded content.
- Delivered **responsive, accessible, and pixel-perfect UIs** aligned with modern UI/UX standards and WCAG guidelines.
- Collaborated closely with designers and developers in **Agile sprints**, participating in **code reviews** to ensure high-quality, reusable solutions.

Senior Software Engineer | Open Solutions Software Services | India | Oct 2010 – May 2012

- Spearheaded **frontend development** for enterprise apps using JavaScript, HTML, and CSS.
- Ensured performance and maintainability via modular component architecture.
- Collaborated with **UX designers and PMs** to roll out usability enhancements.

Software Engineer | MS Technology Pvt Ltd | India | Jul 2006 – Oct 2010

- Developed high-performance enterprise software using C++.
- Integrated and customized client-side modules for seamless deployments.
- Resolved critical production issues and optimized code for system-level performance.

Education & Certifications

- **B.Tech, Computer Science**, Uttar Pradesh Technical University, India.
- **World Wide Vibes Hackathon** (GenAI Works)
- **Career Essentials in Generative AI** (Microsoft & LinkedIn).
- **AI Fundamentals with Capstone Project** (IBM).
- **Accessibility for Ontarians with Disabilities Act (AODA) Training.**
- **HTML/CSS/JavaScript** (Johns Hopkins).
- **Scrum Fundamentals** (SCRUMstudy).
